

FALLOW COVER CROPPING WITH LEGUME & MIXED SPECIES

WORKSHOP

REDUCE CANE FERTILISER INPUT COST

ENHANCE NITROGEN CYCLING

IMPROVE SOIL HEALTH

REDUCE SOIL EROSION

IMPROVE WATER QUALITY IN OUR WATERWAYS

Cover cropping in fallow ground is simple and inexpensive - find out how this can work for you. Chat with local agronomists and DAF economists about real life fallow cropping successes in the Mackay Whitsunday region.

Hear from the experienced team, inspect mature fallow crops and check out the seeding equipment available for your use

Just past
413 Winton Rd Wagoora
Follow the signs from the Bruce Highway

9.00am Thursday
7th October 2021

BBQ lunch and refreshments provided

RSVP by 5th October 2021 to Ross Neivandt on 0408 139 289

Contact Annette Corcoran at Nutrien Ag Solutions (0419 027 026) or Che Trendell at Farmacist (0439 588 627) for further information
